## **NYS DOT TO HOST PUBLIC INFORMATION MEETING FOR CLAYTON VILLAGE RECONSTRUCTION PROJECT, JEFFERSON COUNTY**

The New York State Department of Transportation (NYS DOT) will host a public information meeting Tuesday, June 5, from 5 to 8 p.m. to provide a public update on the project to reconstruct State Route 970L in the Village of Clayton. The meeting will be held at the Clayton Village Municipal Building, 425 Mary Street, Clayton, NY 13624.

The purpose of this meeting is to provide an update on and an overview of the proposed project and to answer questions related to the project. The proposed traffic control plan will be explained as well as possible construction schedules. The evening will include an opening meet and greet at 5 p.m., followed by a formal presentation at 5:30 and will conclude with an informal open house and representatives addressing individual questions.

The proposed project will reconstruct a portion of James Street and Webb Street and all Riverside Drive between James and Webb Street. The project will replace subsurface utilities and is expected to relocate overhead utilities through the historic district. The project will utilize one-way traffic plans to mitigate congestion and expedite construction as well as temporary street closures during the day to facilitate the work. The project is expected to be bid late this fall and be completed late in 2020.

Please advise this office if a sign language interpreter, assistive listening system or any other accommodations will be required to facilitate your participation. Interested individuals who are not able to attend on this date may obtain project information by contacting: Stephen Gagnon, P.E., Design Project Engineer, at (315) 785-7974 or by email at [steve.gagnon@dot.ny.gov](mailto:steve.gagnon@dot.ny.gov)
